LEGALEASE: AI-POWERED LEGAL DOCUMENT GENERATOR

Phase 7: Project Documentation Phase

Milestone 4: Frontend Development

The LegalEase frontend is developed using Streamlit.

User Interface

The interface contains:

- Company logo.
- Application title.
- Document type input.
- Parties input.
- Terms input.
- Effective date input.
- Generate Document button.
- Edit Document option.
- Download options.

Document Preview

After generation, the AI-created document is displayed in a structured preview area.

The preview allows users to review:

- Document title.
- Parties.
- Terms.

- Clauses.
- Effective dates.
- Other generated sections.

Editing

Users can select **Edit Document** and modify the generated content before downloading.

Export Options

The application provides:

- **Download TXT** – plain-text document.
- **Download DOCX** – formatted Word document.
- **Download PDF** – formatted PDF document with branding.
