LEGALEASE: AI-POWERED LEGAL DOCUMENT GENERATOR

Phase 8: Project Demonstration Phase

The final phase demonstrates the complete working flow of LegalEase.

Demonstration Workflow

Demonstration Example

The user enters:

```
Document Type: Non-Disclosure Agreement

Parties:
Company A and Company B

Terms:
Confidential information should not be disclosed
without authorization.

Effective Date:
01/10/2026
```

The request is sent from Streamlit to the FastAPI backend.

FastAPI validates the information and sends it to the Gemini document-generation component.

Gemini generates the structured legal document.

The generated document is returned to the Streamlit interface, where the user can:

1. Preview the document.
2. Edit the document.
3. Download it as TXT.
4. Download it as DOCX.
5. Download it as PDF.
